APICE

design Marcello Ziliani

BOSSINI

La sofisticata semplicità
della collezione
è una carezza d'acqua
che si trasforma
in un'esperienza viva
ed emozionante.

The sophisticated yet simple shapes
of the collection caress the body,
transforming your shower into
an intense and luxurious experience.

Look

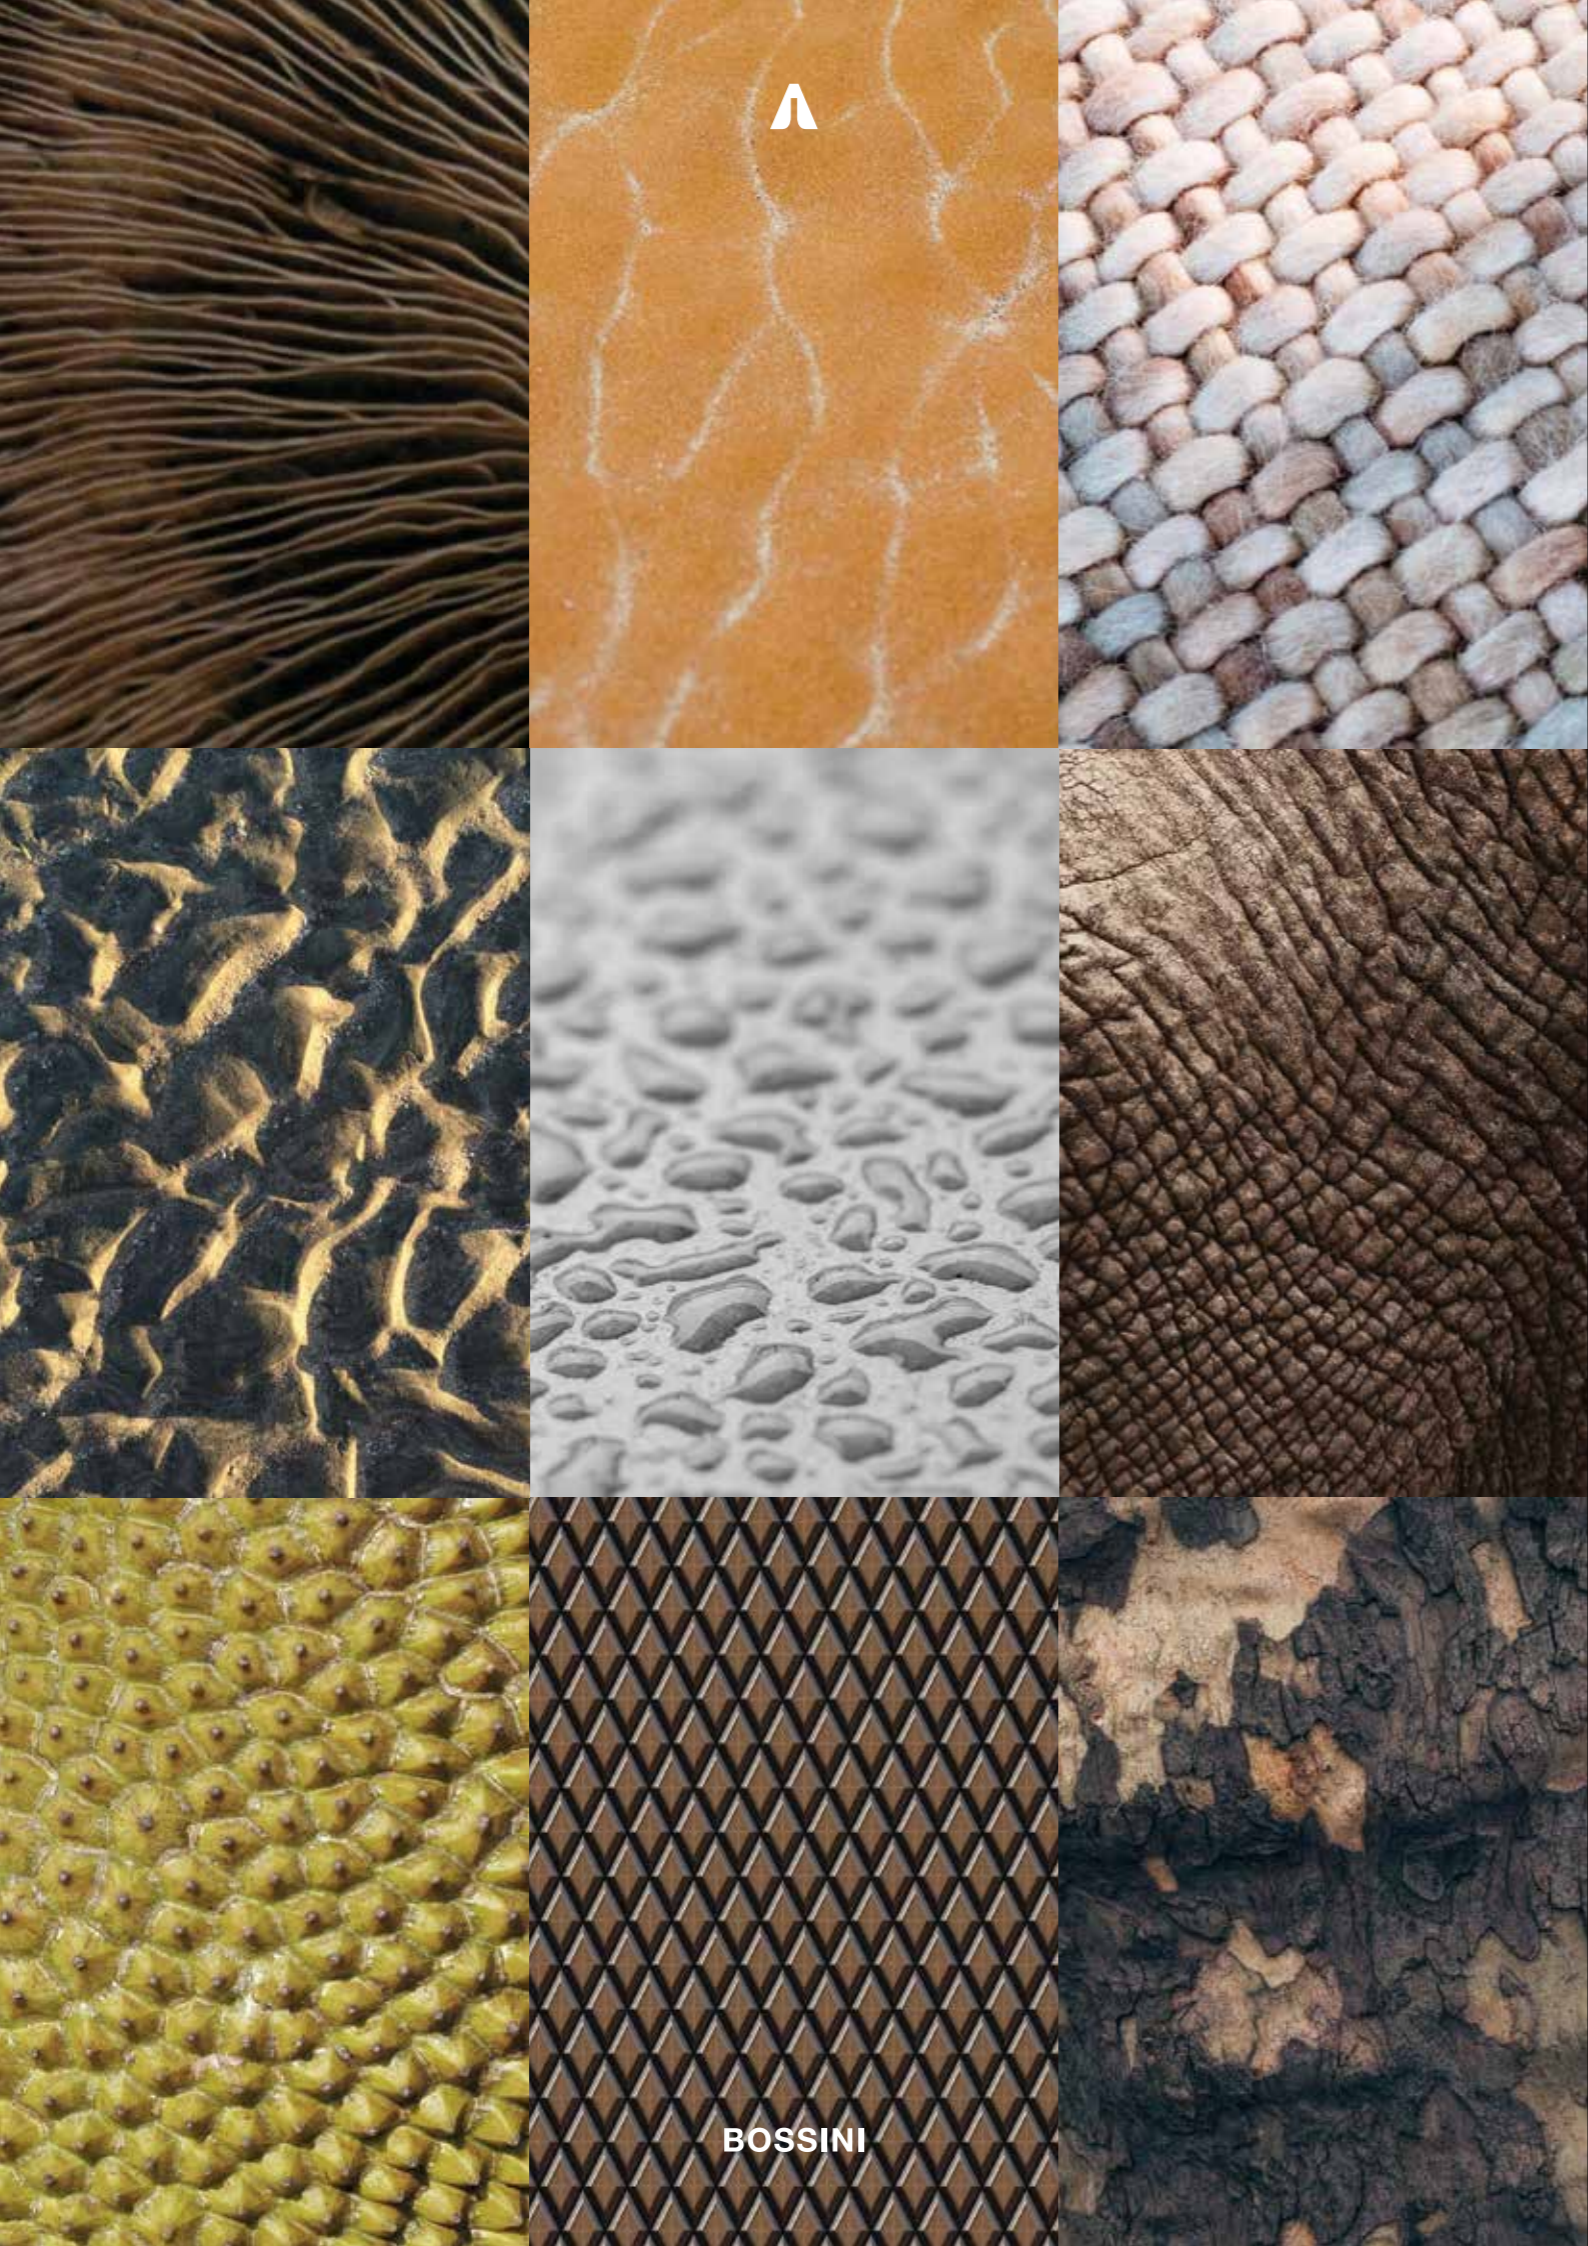

BOSSINI

Collezione Apice

Una linea pura, continua, realizzata come con un colpo di scalpello a modellare una forma che trae origine dal cilindro. Per la prima volta un getto d'acqua diventa una composizione di sorprendente leggerezza, una scultura per sottrazione, una linea lieve e decisa, la cui bellezza cattura lo sguardo.

A pure and continuous line created as though by a chisel, with a cylinder-inspired form. The first water jet that is a true artwork. An amazingly lightweight and subtractive sculpture; a simple but decisive design of striking beauty.

BOSSINI

Touch

La superficie creata da una texture continua di piccoli tronchi di piramide dà forma a un diffusore assolutamente inedito, morbido e piacevolissimo al tatto, che invita al contatto diretto con la pelle.

The surface is textured with tiny truncated pyramids, creating a unique diffuser that is soft and pleasurable to the touch; an invitation to direct contact with the skin.

Le forme semplici del cerchio o del cilindro enfatizzano la sensazione di leggerezza assicurata dal massaggio delicato dell'acqua. Entrambe le versioni sono a getto fisso per garantire una continua e costante piacevolezza d'uso.

The simple shapes of the circle or cylinder emphasize the feeling of lightness provided by the gentle water massage. Both versions have a fixed jet to ensure continuous and consistent pleasure in use.

Feel

BOSSINI

Collezione Apice

BOSSINI

L'esperienza comincia dal primo sguardo. L'essenzialità delle linee trasforma in pochi tocchi la personalità dell'ambiente. Vestiti da una texture morbida e continua che invita a una nuova dimensione di benessere, docce e soffioni si inseriscono nel bagno contemporaneo con naturale eleganza, grazie a forme precise e sottili, esaltate dal contrasto tra lucido e opaco, ruvido e liscio.

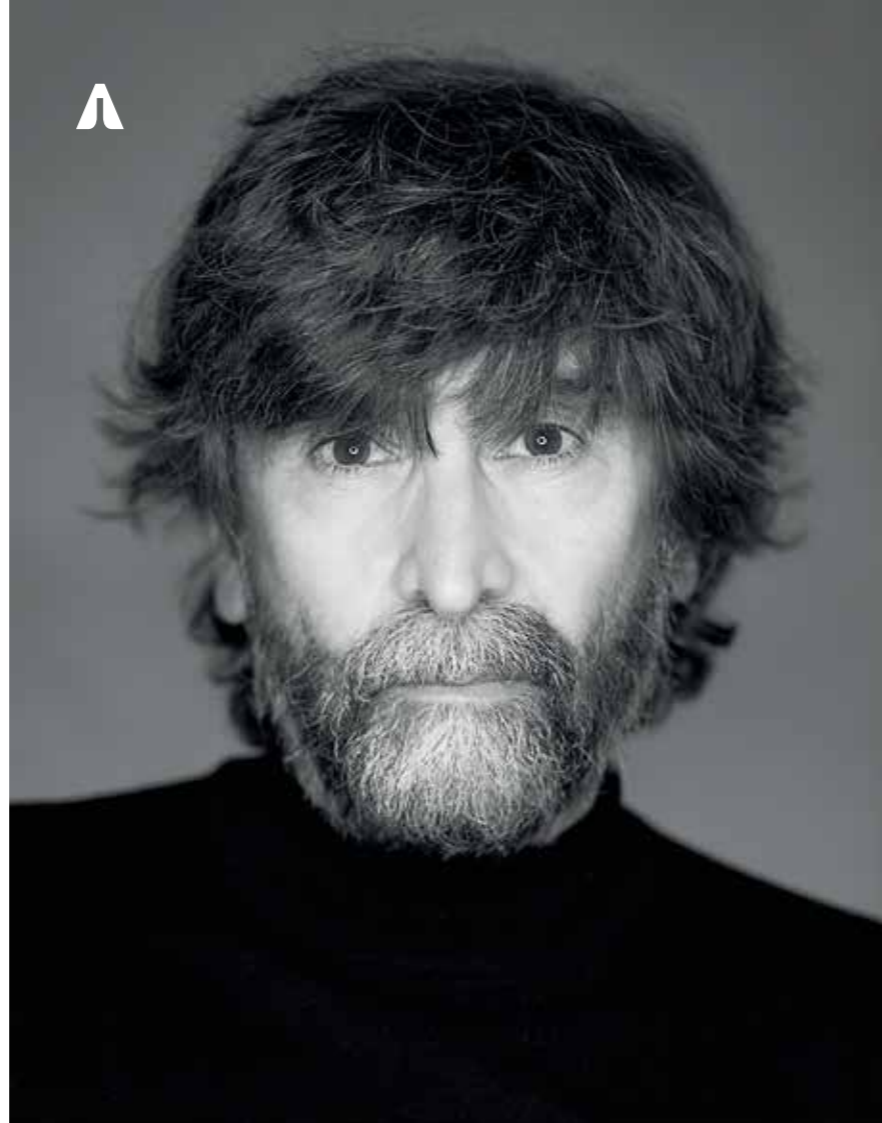

The experience begins at first glance. The essentiality of the lines transforms the personality of the environment in just a few touches. Dressed in a soft and continuous texture that invites you to a new dimension of well-being, handshowers and showerheads fit into the contemporary bathroom with natural elegance thanks to precise and subtle shapes, enhanced by the contrast between glossy and matte, rough and smooth.

Nelle finiture più classiche in cromo e nichel spazzolato o nelle polarità del bianco e del nero, la collezione Apice eleva un'azione quotidiana a momento di benessere attraverso la bellezza delle forme e la semplicità del suo utilizzo.

In the most classic finishes of chrome and brushed nickel or in the polarities of white and black, the Apice collection elevates an everyday action to a moment of well-being through the beauty of its forms and the simplicity of its use.

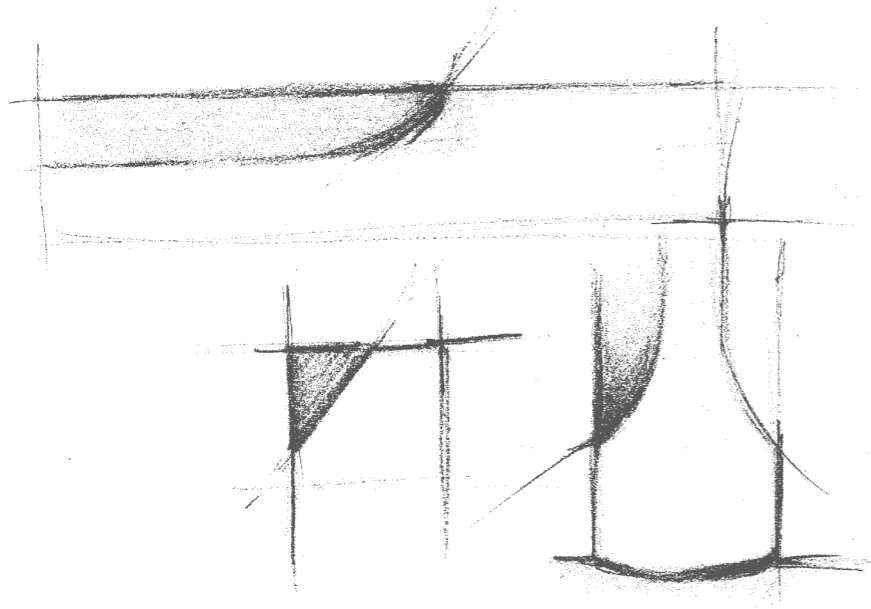

Designed for your senses

L'acqua diventa un elemento tangibile e "fisico" che non solo deterge, ma è anche fonte di piacere, energia e forza.

Water becomes a tangible, "physical" element that not only cleanses you, but is also a source of pleasure, energy and strength.

Docce Apice

Apice handshowers/showerheads

BOSSINI

Collezione Apice

Soffione, doccetta tonda e doccetta rettangolare modellano un getto d'acqua che offre inedite sensazioni.

Overhead shower, round handshower
and rectangular handshower
shape a water jet that offers
unprecedented sensations.

Rispetto ai getti tradizionali, disposti radialmente, Apice ha infatti una precisa disposizione a geometria ortogonale che regala una tonificante sensazione di massaggio, trasformando la doccia in un momento di profondo benessere.

Compared to the radial pattern of traditional jets, Apice has a precise and innovative orthogonal pattern that treats you to a toning massage, transforming your shower into a moment of intense well-being.

**B00900**

Doccia Apice Ø 140 mm monogetto, getto ampio a pioggia.
Funzione Easy-Clean per la facile eliminazione del calcare.

Apice single function handshower Ø 140 mm, wide rain spray.
Easy-Clean system for easy removal of limescale.

Doccia Apice

Ø 140 mm

Apice handshower Ø 140 mm

Apice è la doccia pensata per erogare un getto ampio e avvolgente che consente all'acqua di avvolgerci come un manto, regalando alla vostra pelle il piacere nuovo di una carezza energica, che scivola via portando con sé tensioni e stanchezza. Qui si fondono funzionalità, ergonomia e design: la dimensione della doccia diametro 140 mm promette un piacere della doccia in formato XXL. Questa inedita superficie texturizzata in continuo, in gomma termoplastica molto morbida, è stata concepita per permettere un contatto molto più diretto con il corpo quasi uno strumento di massaggio.

Apice is a handshower designed to deliver a wide jet that envelops you like a mantle, regaling your body with the newfound pleasure of a gentle, powerful caress, causing tension and tiredness to melt away. Functionality, ergonomics and design are combined here; the large size of the handshower (140 mm diameter) assures a shower experience in XXL format. The ground-breaking, soft thermoplastic rubber textured surface has been designed to allow much more direct contact with the body and used almost as a massage tool.

Miscelatori doccia termostatici alta portata

High-flow thermostatic shower mixers

Adatti agli ambienti bagno di stile contemporaneo così come a quelli più classici, i miscelatori a incasso Apice possiedono una cifra estetica senza tempo. In pochi millimetri tratteggiano a parete linee pulite, unendo tecnologia, qualità e design distintivi. Tutti i termostatici ad alta portata hanno attacchi da 3/4" e possono essere installati in verticale o in orizzontale. Una delle caratteristiche principali del sistema termostatico alta portata di Bossini è che funziona in modo ottimale anche in condizioni di bassa pressione.

Suitable for both contemporary and classic bathrooms, the Apice concealed mixers have a timeless aesthetic appeal. In just a few millimetres, they outline clean lines on the wall, combining technology, quality and distinctive design. All the high flow thermostatic mixers have 3/4" connections and can be installed vertically or horizontally. One of the main features of the Bossini high flow thermostatic system is that it works well even in low pressure conditions.
