Water-releasing device for DREAM showerheads
 All Bossini Dream ceiling-mounted showerheads have a built-in air suction duct in the water distribution chamber. This device, patented by Bossini, allows you to immediately discharge the residual water from the distribution chamber when you close the mixer, thereby minimizing water stagnation inside the showerhead. It also enables the mixing of air and water to give you a bracing water jet.

Quick drainage

Water-releasing device for DREAM showerheads
All Bossini Dream ceiling-mounted showerheads have a built-in air suction duct in the water distribution chamber. This device, patented by Bossini, allows you to immediately discharge the residual water from the distribution chamber when you close the mixer, thereby minimizing water stagnation inside the showerhead. It also enables the mixing of air and water to give you a bracing water jet.

Materials

Shower head: Stainless steel AISI 304
Nozzles: Silicone
Gaskets: EPDM
Fittings: Brass

Conformity

UNI EN 1112

Hydraulic features

Minimum flow-rate for optimal performance: 16L/min
Min pressure: 1 bar
Max pressure: 5 bar

Syncro Renovation set

Installation 1 water inlet

Il soffione Syncro prevede un'unica alimentazione con acqua già miscelata che ne semplifica di molto l'installazione e consente di utilizzare gli attacchi a parete già esistenti, rendendo ancora più facile rinnovare l'ambiente doccia.

The Syncro shower head is featured by single supply with ready mixed water that greatly simplifies installation and allows you to use the wall mounts already in place, making it even easier to restore the shower space.

Beim Brausekopf Syncro ist nur ein einziger Wasserzulauf mit bereits vorgemischtem Wasser vorgesehen, der die Installation erleichtert und die Verwendung von bereits bestehenden Wandbefestigungen ermöglicht. Dadurch wird die Erneuerung des Duschbereichs noch einfacher.

La douche de tête Syncro prévoit également une unique alimentation avec de l'eau déjà mélangée, ce qui en simplifie considérablement l'installation et permet d'utiliser les raccordements muraux déjà existants et rend encore plus facile la rénovation de l'espace de la douche.

El rociador Syncro prevé una única alimentación con agua ya mezclada que simplifica mucho la instalación y permite utilizar los empalmes a la pared ya existentes, facilitando todavía más la renovación del ambiente de la ducha.

Душ Syncro predisположен для подключения к уже смешанной воде, что также намного упрощает установку и позволяет использовать уже имеющиеся подключения, делая процесс обновления ванной пространства еще легче.
